

Application Support & Data Operations Specialist with 1.5+ years of professional experience in technical incident management, application troubleshooting, and data validation across the fintech and telecommunications sectors. Successfully investigated and resolved 550+ technical and operational incidents with a >95% resolution rate using SQL, Grafana, and Jira. Skilled in root cause analysis (RCA), backend data patching, and workflow automation (Excel VBA & Python Pandas) to ensure strict SLA compliance. Immediately available to join.

CORE SKILL

Application Support | Incident & Problem Management | Payment & Transaction Operations | SQL & Data Validation | Data Patching | Operations Monitoring | Reconciliation | Root Cause Analysis (RCA) | SLA Management | Process Automation

EXPERIENCE

Product Operation | Digital Operations – Digital Problem Management Jun 2026 – Sep 2026
PT Bank Raya Indonesia Tbk – Digital Operation Division | South Jakarta, Indonesia

- **Incident & Problem Management** : Investigated and resolved 150+ complex digital transactions and application incidents with a 96% resolution rate across payment and digital saving ecosystems.
- **Payment Operations** : Troubleshooted QRIS, interbank transfer, e-wallet, and merchant settlement issues, successfully resolving failed transactions, balance discrepancies, and delayed settlements.
- **Application Support** : Conducted technical backend investigations for the Raya 2.0 app, covering biometric face verification, customer data validation, login/activation blocks, and debit card integration issues.
- **Partner Coordination** : Coordinated deep-dive incident investigations with internal engineering teams and 9+ external banking/payment partners to ensure swift resolution within strict SLAs.
- **Data Operations & Monitoring** : Maintained system health via proactive Grafana monitoring. Executed secure customer metadata updates, data patching, and handled corporate management system (CMS) admin adjustments.

Technical Support Nov 2023 – Dec 2024
PT Indonesia Comnets Plus (PLN Icon Plus) | South Jakarta, Indonesia

- **Technical Incident Resolution** : Investigated and resolved 400+ data-related technical incidents and network support issues, maintaining a >95% success rate in accordance with corporate SLA requirements.
- **Process Automation** : Automated recurring operational reporting workflows using Microsoft Excel Macros (VBA) and optimized SQL queries, cutting data processing time by 20%.
- **Data Validation & Analytics** : Performed robust SQL-based data validation and system troubleshooting, achieving >99% data accuracy and significantly reducing data anomaly risks in reporting.
- **Data Migration** : Supported large-scale data migration for 100+ active enterprise users to the FRAOnline platform using Role-Based Access Control (RBAC) to ensure strict data integrity.

TECHNICAL TOOLS

- **Database & Code** : SQL (PostgreSQL, MS SQL Server), Python (Pandas)
 - **Data & Analytics** : Microsoft Excel, Excel Macros
 - **Monitoring & Management** : Grafana, Jira, Confluence
 - **Systems & Platforms** : QRIS Merchant Systems, CMS Banking Platforms, Process Maker & Signer
-

EDUCATION

Yogyakarta University of Technology (UTY)

Sep 2019 – Jul 2023

Bachelor of Informatics | GPA 3.14
